KATALOG
Eingangstüren
aus Metall

ÜBER DIE PRODUKTION

Alle produkte sind durch europäische Qualitätszertifikate zertifiziert.

Jede Tür durchläuft während aller Produktionsphasen eine strenge
Qualitätskontrolle.

LASERSCHNEIDEN

Moderne Metall-Schneidetechnologien ermöglichen es dem Herstellerwerk, die komplexesten und präzisesten Arbeiten durchzuführen.

LASER CUTTING

Modern metal cutting technology allows our production to perform the most complex and accurate operations.

METALLVERARBEITUNG

Das Walzen ganzer Stahlbleche auf automatischen Pressen gewährleistet die Festigkeit der Teile.

METALWORKING

Rental of solid steel sheets on automatic presses - this makes the parts strong.

POLYMER-BESCHICHTUNG

Die dreifache, zinkhaltige Polymerbeschichtung macht die Tür beständig gegen Korrosion und UV-Strahlung.

POLYMER COATING

The triple zinc-retaining polymer coating makes the door resistant to corrosion and ultraviolet light.

VERPACKUNG

Die Türen sind in einer Kartonrohrverpackung verpackt, die die Produkte beim Transport und bei der Lagerung zuverlässig schützt.

PACKAGING

The doors are packed in piping and cardboard packaging, which reliably protects the products during transportation and storage.

PROFESSIONELLES TEAM

Unser Team besteht aus Menschen, die den Wunsch eint, die besten Türen Europas herzustellen. Wir arbeiten für unsere Kunden und sind wirklich stolz auf unsere Arbeit.

PROFESSIONAL TEAM

Our team consists of people united by the desire to produce the best doors in Europe. We have 20 years of successful work dedicated to our favorite business. We work for our clients and are really proud of our work.
